*"Climate change is the defining issue of our time –  
and we are at a defining moment."*

*Secretary-General António Guterres*

**United Nations Day** marks the anniversary of the entry into force of the UN Charter in 1945. It is celebrated around the world, recognizing the importance of the global body dedicated to **peace, prosperity, and justice**.

Since 2000, the **United Nations Association of Greater Boston** has organized a UN Day Luncheon to celebrate the UN's accomplishments and indispensable work by engaging high-level policy-makers, members of the business community, and academic leaders around a critical global issue.

In 2019, we highlight the topic of **Sustainable Energy for All** and consider the question "How can we improve technology and remove barriers to ensure that all people have access to clean, affordable energy?" Rachel Kyte, Dean of The Fletcher School at Tufts University and Special Representative to the UN Secretary General on Sustainable Energy For All, will provide her insight and commentary.

Thank you for your support of the 2019 UN Day Luncheon. We look forward to the opportunity to reaffirm the importance of the UN's leadership **at the time of its founding and for the challenges of the future**.
